

Bambach

AUSTRALIAN ADVANCED CABLE MANUFACTURERS

19th May 2022

Sale Airshow

Anzac day weekend kick started with our CEO Alf Chown attending the Sale Airshow with Defence Prime, Pilatus Australia. The show was a resounding success with over 10,000 attendees enthralled by the aerial acrobatics of the RAAF Roulettes and commercial aerobatic teams as well as numerous WWII aeroplanes on display flying through the sky.

It is great to hear that the success of the Airshow will ensure future Airshows to go ahead on a biennale basis.

Bambach has supplied Airfield Lighting cables into the Airfield industry for many years and even more impressive we have been supplying our very own low voltage cables to the Australian Defence Forces for exactly 80 years.

ODIS Support Briefing

Our CEO, Alf was pleased to present at the Office of Defence Industry Support Briefing session in Gippsland, Victoria. The session included guest speakers from Bambach and RAAF Base East Sale.

This Regional event drew over 45 participants, enlightening many to the vast business opportunities that now exist following the adoption of the 2016 Defence White Paper which has recently been reviewed with further commitment to develop Industry Capacity to support the Australian Forces with the \$500 billion budgeted on Defence expenditure over the coming 10-15 years.

If now wasn't a good time a good time to build your capabilities and become "Defence Ready" I don't know when will be - luckily for us, we have been in the Defence game for almost a Century.

What a busy month it has been in the Defence space!

We attended the Sale Airshow with Defence Prime, Pilatus Australia

We attended the Gippsland Office of Defence Industry Briefing and had the privilege to be a guest speaker

We attended the BAE Industry Briefing which had a large focus on Australian manufacturing

We attended the Indo Pacific 2022 Exhibition

**Did you know that
Bambach is a
member of the
Defence Industry
Security Program?**

BAE Industry Briefing

Our Business Development Manager, Jo attended the BAE Industry Briefing in Sydney which had a large focus on support for Australian manufacture, local sourcing and assisting SME's to become "Defence Ready".

Attending these sessions and further educating ourselves on the latest Industry news and updates is essential. It's also a great time to do some networking during the breaks and catch up with new and old industry associates.

Indo Pacific 2022

Indo Pacific 2022 was a stand out with a record 736 participating exhibitors displaying some incredible capability within the Maritime industry. It was certainly a lovely reunion of all things Maritime and Defence related after little to nothing has been happened for the past two years thanks to COVID. Many members of our team from Victoria and NSW attended this event and caught up with existing customers, perhaps some future clients and other Industry professionals.

" We love attending these events and look forward to the many more throughout the year "
